1. Answer the following based on your initial investigation of this evidence.

a. Mention the different file types present in the image

.txt and .xls

b. When was the suicide note created

I. Date

12/09/2005

II. Time

09:48:00

c. Provide the date and time of the assets file

I. Date

12/09/2005

II. Time

09:47:58

d. The total value of a deceased person's assets

\$2,796,000.00

2. Click the Report icon to display the results of your initial investigation of this evidence.

a. What is the file system used in this image?

FAT12

b. What is the name of the technician?

Joe Friday

c. What is the time zone where this image was located?

Pacific Time

d. What is the total number of clusters contained in this image?

2847

Do you think the deceased committed suicide? Write a brief report including any facts from the contents of the recovered data. (Hint: Look into the dates of the files).

No, the dates do not line up on the creation and last redied dates. It is likely that they were not the same person. The dates make it look like a suicide and for someone to take her assets as she has a lot of money.
